

### 03/20/2012 – The Writing on the Wall

On March 20, 2012 I had been sleeping during the day because I was working night shift at the time. I suddenly woke up during the day and saw images on my wall made by the sunlight. At first I paid them no attention. These images showed up the next day as well. On the third day I recognized one of the images as the Phoenician letter “He”. When I was a child my Father had a dictionary that had many different alphabets in the appendix – Hebrew, Sanskrit, Russian, Phoenician, Arabic, Egyptian Hieroglyphics and many others. I was interested in them and tried to memorize them all! I recognized these as Phoenician and Hebrew letters. The Lord was putting Hebrew letters on my wall with the sunlight! This really woke me up! I barely managed to get this photograph of them as they were vanishing! Notice the clock on the wall. This photograph was taken at 11:30am, when the sun was high in the sky, with no possible way to shine on my bedroom wall!

---	---	---

It took me a few weeks to decipher and get the meaning of what The Lord was trying to tell me. Yes, I know the letters are backwards, but the reason is explained later – it is a “puzzle” message meant to deepen our relationship. Hebrew letters are amazing – they have many meanings at the same time. The first meaning I found was an announcement, like the blast of a trumpet – “He is Lord!” Then the Hebrew letters for window, door, learn with intent to teach, width, length, height – all these are terms related to houses or home inspections are mentioned. I got the feeling that I was to restart a home inspection business that I had been running a few years before. I felt that God was telling me to make this change and quit my current job on April 30 of 2012 (4/30). He also mentions there being revelations of hidden things, the constellations, the stars, the feast days of The Lord, and “The Cross” as well – already indicating the task He has appointed me to undertake, even though it was hidden from me at the time! The message ends with the triangle – The Seal of God - “Holy, Holy, Holy!”

		
He	Dalet	Lamed
He	D	L
(Hebrew is read from right to left: He (is) L_D ----- “He is Lord” - an Announcement!)		
Window	Door	To learn with intent to teach
Width, length, height	The poor man will be helped by the rich man	As a tower soaring through the air – to rise above
Expression through thought, speech, and action	Selflessness	Aspiration
Revelation – to be opened	4 letters of God’s name	To understand
5	4	30
5 = Change	4 = April	30 = 30th
5 = Leo The King – Regulus is the heart star, the king star denoted by the word “regal”	4 = Cancer To encircle and gather Judaism = Passover Christianity = the cross	The number thirty, being 3 x 10, denotes the perfection of Divine order. 10 means “Holy” and is denoted by a triangle. 3 10’s means “Holy Holy Holy!”  Holy! Holy! Holy! 

I asked The Lord for confirmations to make sure that I was getting this message right. On March 29, 2012 He put the same three Hebrew letters in the sky using the clouds and airplane contrails! Here is a photo I was able to get on my way to work! Look on the right side and you can clearly see the letter “He”, then if you look closely you can see the “Dalet”, then the “Lamed” on the left.
